MY PROJECTS

MystoryBoutique – Ongoing project, an e-commerce boutique built with Typescript, NextJs, Firebase, TailwindCSS and Swiper allowing users browse dresses, make a wish list, add orders to cart and checkout.

Movieverse – Movie-themed website built with ReactJs, NextJs, TailwindCSS, TMDB API. Users can catch up on trending movies, shows, search through hundreds of movies.

Portfolio website – built with React/NextJs, incorporating Context API, Framer Motion, Splide and a backend Forms service: Formspark.

PeerStakes – ReactJs betting site integrating Stripe payment processor, google open authentication, hard-coded authentication, Context API, Framer motion.

WalletNode – crypto app built with ReactJs, React Router and an integrated live chat software (tawk) to facilitate real-time customer support.

Deliciouss – food recipe site built with ReactJs, Spoonacular API, Framer and Splide allowing users explore food recipes.

FoodOnline – ReactJs ecommerce restaurant allowing users place orders and add to cart. As my first ReactJs project, it shows my familiarity with context API and state management.

Advt – My first full website built with pure HTML, CSS and Javascript.

Acme Rockets - Basic business website built with HTML and TailwindCSS, incorporating dark and light themes.
