● Train, onboard and assign tasks to junior counselors, corpers, interns, IT/SIWES students and office assistants.

## EDUCATION/CERTIFICATIONS

Obafemi Awolowo University
*B.Sc Psychology* - 2014 - 2018

Chartered Institute of Personnel Management
*Associate Member (ACIPM)* - April 2022

## SKILLS I've worked with

**Front-end**: TypeScript, ReactJs/NextJs, TailwindCSS, HTML5 , CSS3, JavaScript, Redux
**Database**: Firebase
**Tools**: Git and Github, Jira for Agile Project Management
**Design**: Figma, Photoshop, InDesign
**Backend** (currently Learning)**:** NodeJs/Express, MongoDb

## My Projects:

**MystoryBoutique –** My latest and an ongoing project, an e-commerce store built with Typescript, NextJs, Firebase, TailwindCSS. It will allow users browse through a variety of apparels, make a wish list, add orders to cart and checkout.

**Masena:** Purposed to be an online community bringing Nigerians together, I used the Jira Agile PM tool to create over 100 tickets outlining and detailing the complete lifecycle and will oversee the overall project from start to finish.

**Movieverse –** Movie-themed website built with NextJS, Tailwind CSS and utilizing the TMDB API in a responsive user interface and server side vs client side rendering. Utilizing the TMDB API.

**Portfolio website –** built with NextJs and vanilla CSS. It incorporates Context API, Framer Motion, Splide, Routing, CSS Modules and a backend Forms service: Formspark.

**PeerStakes –** demonstrates my routing and authentication skills with an integrated Stripe payment processor,  google open authentication and hard-coded authentication with Context API. It utilizes Styled Components and Framer motion.

**WalletNode –** built with ReactJs and CSS(Styled Components). I've integrated a live chat software (tawk) to facilitate real-time communication between users and customer support.

**FoodOnline –** e-commerce restaurant built with ReactJs that allows users place orders and add items to cart.As my first ReactJS project, it showcases my familiarity with context providers and state management.

**Advt –** dummy online gadget store built with pure Html, CSS and Javascript. This was my first full website and showcases my mobile responsiveness skills and commitment to a pixel perfect design.

**Deliciouss –** food recipe site built with ReactJs. It utilizes the Spoonacular API, Framer and Splide and demonstrates my routing and data fetching abilities. This platform allows users explore a vast array of food, pastries, and recipes in a user-friendly and responsive interface.

**Acme Rockets** -Basic website built with TailwindCSS and Html that showcases my knowledge on  mobile responsiveness, dark and light themes and TailwindCSS

**TIC-TAC-TOE Game** - Game I built very early on demonstrating my knowledge of pure javascript and interactive components.

**Expenses App -** Allows users manage their expenses. This helped ground my react skills on passing props, rendering components and handling forms.

**UI/UX and Graphic Designs** - I designed several websites, landing pages, fliers and image manipulations with Figma, Photoshop and InDesign tools. Creativity makes me happy and bringing these designs to life enhanced my creative and design skills.
